PATS Northeastern Representative

First and foremost, I am again grateful for this nomination. I would again like to continue to serve the membership as the Northeast Regional Representative.

As an elected board member, I plan to continue to serve the society with passion and integrity. Our society is highly respected across the nation for its membership's achievements and leadership and I plan to see that continues.

I am always available to our membership, no matter what the issues.

A little bit about me. I am the Director of Sports Medicine at Kutztown University of PA and oversee a program that services 22 sport teams and oversees the healthcare needs of the football, women's basketball and softball student-athletes. My involvement with PATS over the years is as follows: Nominations Committee (1993-97); Treasurer (1997-1999); Co-Chair of the Convention Committee (1998-1999); Chaired the Convention's Exhibit (2001) and Special Events (1995-2006) and started the Corporate Sponsorship Committee (1998-2001); College/University Committee (1996-1998, 2004-2008, **Chair**-2004-2008).

My academic background includes an undergraduate degree from West Chester University, a graduate degree from East Stroudsburg University and certification as a Registered Orthopedic Technologist.

Thanks to everyone for their support.
